

GUMMED TAPE

Product Features

Single Sided Kraft
Paper Coated with
Water Activated
Adhesive

Application

For sealing light to
medium-weight cartons
and general bundling
purposes and also
ideally as a material in
science laboratory or
research laboratory
for labelling of apparatus

Natural
Brown

Product Sizes

Jumbo Roll Size :1060mm x 1000m
Cut Size :As per customer
requirements

Shelf Life

12 Months Storage at 23°C and
65% Relative Humidity

Technical Data

Product	Total Thickness		Peel Adhesion		Tensile Strength	
	(um)	(mil)	(N/in)	ASTM D-3330 (oz/in)	(N/in)	ASTM D-3759 (lb/in)
GTWA13	130	5.1	6.8	24	135	30
RKPT13	130	5.1	6.8	24	-	-

Product Characteristics

- Water activated, excellent adhesion and good conformable after moistened with water
- Creates a fast, permanent bond and aggressively bonds to corrugated cartons, even in dusty or dirty environments
- Tamper-proof and difficult removal of carrier from application surfaces
- Superior bonding strength maintenance over variations in climate temperature
- Anti-abrasion
- Printable and able to be written
- Used to cover old labels and markings to minimize confusing shipping companies
- Excellent tensile strength
- Used for two strip sealing cartons top and bottom. Works well on recycled cartons, and non-unitized loads
- Recyclable, biodegradable and accord with environmental protection requirements
